

# THE ULTIMATE GUIDE TO FARMVILLE CASH

IF YOU DO NOT KNOW THESE SECRETS –  
THEN YOUR GOING TO BE A POOR FARMER  
FOR A VERY LONG TIME.....

## Secrets of the 'Add Farm Coins & Cash' button

So you are one of the Farmville players on Facebook and you need some little Farmville secrets that will let you earn coins and even earn and spend more FV Cash that others usually don't know how to do. Later on, you will know the secrets on how to make your Farmville experience a more exciting one. Everybody plays Farmville but since it is popular and almost every individual has a Facebook account playing this game, what we want to do to have an edge is to own those items and farm decorations that can only be purchased by using the FV Cash (the one with the paper bills logo and the letters FV on it). Earning 1 FV Cash happens when we increase one level and this can be a slow process especially when we are already high level.

Believe it or not I got to know a secret from my friend on how he has already spent about more than 100 FV Cash while he is only at level 16! I was so envious that he has already purchased a manor and other cool decorations that can only be purchased using such monetary unit in the game. At first, he doesn't want to let me know how he did but after making transactions I finally got the Farmville secrets that he got. This is what he told me about gaining cash on the game:

First, you can actually get those free cash through the 'Add Farm Coins & Cash' button located in the game play. You can actually join some surveys and fill out some free offers. By doing this, you will be credited with additional FV cash without even spending real money online or using any kind of Farmville cheats. Happy farming and enjoy those free FV Cash.

## The Best Cheats for FarmVille on Facebook

The best cheats for FarmVille on Facebook are the legal guides, tips and secret strategies you can learn from other more experienced and perhaps more devious players.

There are thousands of these around. You can find blog posts, videos, pdfs. whatever you want. Whether they are any good or not is the difficult part. Sometimes the trick is totally outdated. Other times it's too complicated or just plain nonsense. And in the worst case scenario the advice can be downright dangerous.

Dangerous? How can cheats for FarmVille on Facebook be dangerous?

Well if you read the terms of service for the game you will see that some form of cheats are actually illegal and not acceptable according to the usage rules.

The rules state very clearly that you cannot use any automated system to play the FarmVille Facebook game. This includes spiders, bots and cheat utilities.

So what's the worst that can happen to you if you do "cheat"? For one thing you can get banned from playing the game. You could have your account terminated and not be able to play any of the other games created by the same provider. And even worse you could have your actual Facebook account suspended too.

This would be bad enough but even worse in my opinion is the risk to your own computer you create when you use third party software. Bots can and often do carry virus' and nasty stuff like spyware or malware.

### What's a Bot?

Bots are the most commonly recommended Facebook FarmVille cheat. A bot is the short name for web robots that run automated tasks for you. The reason why they are not welcome in the online games world is because bots quickly and automatically gather or 'farm' for resources that are usually only gained through significant time and effort. In other words it wrecks the game for other players and ultimately makes the game boring especially for the bot user. Not all bots are malicious but using any bot is against the terms of service for FarmVille. And in case you are wondering how a bot is detected it is usually via the mouse movement. If it's the same every single time then something is usually on the nose and it ain't pig manure.

### What's A Hack?

A hack is different from a bot in that usually a hack relies on fiddling with code. A lot of people do it but if you don't know what you are doing you can really cause yourself a lot of problems including being banned from the game. And if you think the chances of being caught are slim here's a few numbers to wrap your head around. Recently there was an online poll asking if people had ever been caught hacking while playing a game. Nearly six thousand people responded and nearly half of them had been caught. Two thousand three hundred and fifty one admitted they'd been caught. That's about 44% of everyone who responded. Most of them also mentioned that they had been either temporarily suspended or permanently banned. A lot said it was a real pain and they would never hack again.

## **Mastering the Daily Raffle and how to WIN GUARANTEED**

Farmville, since its release in June 2009 has been a hit to everyone - young and adult alike. The game is simply addicting! I assume this is the very reason why you are now here on this page hoping to find some tips and tricks in Farmville. Farmville cheats on Facebook may be a hard find but as many people are getting hooked in this game, more and more cheats are leaking out. Anyway, enough with the talk. Here you will find simple tips and tricks you wouldn't imagine possible.

Okay so after you have chosen and customize your character, you will have to select the crops with the most potential. So what are the factors to consider when choosing the best crop? The first to consider is the profitability. You should also consider how much time it will take before you can harvest them. I won't go into the mathematical details as this may get very much confusing. Bottom line is choose one which is the best seller.

Now that you have your own line of seeds to grow, you have to have a good laid-out plan when to harvest your crops. Obviously, if you have chosen different seeds to grow, you will have to harvest them in different times. This isn't bad after all. In fact this is way better than growing only one variant as this improves your farm's experience points (XP). If you can, mark the time you will harvest a crop on your calendar. Another tip is to plant crops such that it will be convenient for you when you harvest them.

When buying, consider how much they are when you resell them. The resale value is poor in Farmville compared to others. This may not be that important but you will soon see its value when your budget is tight.

The daily raffle is a good way for you to win coins between 10 and 100. Just like any raffle it is completely random so you need to decide whether to do it or not or you will just be wasting your time.

Aside from seeds, one of the things you have to buy is trees and animals. They are a good investment since you don't have to replenish them as compared to crops. Trees and animals need less of your time as they don't need to be harvested from time to time.

Sometimes your internet browser may be a factor in the speed of the game. Internet explorer is okay but it is pretty slow. Consider switching to a faster browser such as Mozilla Firefox.

Farmville is not just about growing crops. Generous people are rewarded in this online game. So be sure to help your neighbors and send gifts to them as often as you can as it can benefit the both of you.

These are some of the simple but highly effective Farmville cheats on facebook that you can practice now. What are you waiting for? Work smart not hard!

## 12 Dangerous Methods that will always Work if Done Right

Method 1; Harvesting Your Crops:

You will earn Farmville Coins each time you harvest your crops. You should plant and harvest often so you can level up fast. If you need coins fast choose a crop with a short growth cycle. As you level up in Farmville you will earn even more coins for each harvest.

Method 2; Harvest Your Fruit Trees:

Harvesting your fruit trees is just like harvesting a crop. When you harvest your fruit tree you will receive Farmville coins for your fruit.

Method 3; The Daily Raffle:

Log in to Farmville each day, this increases your chances of earning free coins in the Farmville Daily Raffle. Log in even if you don't plan on playing that day.

Method 4; Bumper Crops:

Keep an eye on your home page on Facebook. Look for the "Help Harvest Link." If one of your neighbors has a bumper crop they will need your help to harvest the crop. Helping with the harvest may earn you half of the value of the harvest.

Method 5; Gifting:

Send gifts to your Farmville neighbors often. They will most likely reciprocate and send you gifts in return. You can then sell your gifts to earn more Farmville Coins.

Method 6; Help Your Neighbor:

Visit your neighbor's farm and help them with their chores. You can help your neighbor by raking leaves, chasing away crows, raccoons, or a fox. You can also help your neighbor by harvesting their crops or plowing their fields.

Method 7; Celebrate With Friends:

Monitor your Facebook wall. If one of your friends earns a ribbon they may post a celebration. Join them in the celebration to earn more coins.

Method 8; Floating Coins:

When plowing your field you may see floating coins. Grab these coins immediately for a wealth of coins. The more often you plow the greater the chances are that you will encounter floating coins.

Method 8; Farm Animals:

Your Farmville cows and goats produce milk. Chickens produce eggs. Black Sheep produce black wool. White Sheep produce white wool. Pigs produce truffles. Rabbits produce angora. Ducks produce Down Feathers. Your horse will produce horse hair. You will earn coins each time your animals produce and you collect the production.

Method 10; Sell Your Trees & Animals:

Selling your trees, animals, and other items will earn Farmville cash. Ask your neighbors to gift you more trees & animals so you can keep harvesting fruit, and keep producing eggs, milk, and wool, angora, down feathers, truffle, and horse hair.

Method 11; Purchase Coins:

If you are desperate for coins and personally wealthy you can purchase coins with real cash, your credit card. This takes away from the personal accomplishment of the game but if so inclined go ahead!!!

## **Seeds are the Answer -are you Buying the Wrong Ones?**

Let's cut the chase. So you want to know Farmville tips on how you can earn coins faster than your friends? With the following tips, you will also learn the secrets on how you can get Farmville cash for free without using any Farmville cheats. But wait a minute, let us go to the basics first before I finally give you the juicy tips on how to be ahead of your friends when it comes to coins, FV cash and cash decorations.

First, open your account and then try to look at what type of seeds you are now able to buy. The type of seeds that you can buy depends on your level while some can be unlocked once you reach a certain level. Try to look at the price of the seeds and the price for which they can be sold once harvested. By subtracting the cost from sales price, you will get the result which is your profit. If you are going to choose from two seeds with the same duration, it is best that you choose the one with the higher profit. For example, the eggplant and squash have the same 2-day duration but I would prefer planting squash because it can give me \$81/plot profit compared to the eggplant which is only \$63/plot. That would be a big difference in profit especially if you have more plots!

Now, here is how you can earn Farmville cash faster without using Farmville cheats. Anyway, Farmville cheats will endanger your account of being banned so refrain from using it. The safer way to earn cash to buy cash decorations and items is by leveling up fast. You will notice that everytime you level up you can gain one FV! I hope this Farmville tips helped you to be ahead of your friends.

## Picking the Right Ribbons – Secrets Revealed

Having trouble getting coins and upgrading your farm in FarmVille? When you start playing any new game there is a period of time where you need to learn the ropes and discover what the best tricks and tips are to make the most of the game. This is true for FarmVille, especially when it comes to making coins and upgrading your farm quickly and easily. You could spend weeks or possibly months making mistakes and figuring out how to make the most of the game or you could simply use the tips below. These tips will make FarmVille super easy for anyone that is new to the game and looking for some solid advice on how to make leveling up a simple and easy process.

Time is crucial in FarmVille. Start the day by creating a new farm before noon. You'll need to hit level 5 by the end of the day, so make sure you get an early start to give you enough time to plant all the crops you need and harvest them in time. As soon as you start your new farm, harvest whatever crop is ready to be harvested. Once you have done this proceed to plant strawberries. Plant as many as you can because strawberries are the low level cash crop that will make it super easy to earn coins quickly. Plant and harvest strawberries until you have increased your farm to the size of 12x12 squares. I also recommend that you plant all your strawberries at once so that they mature and can all be harvested at the same time.

Another key to leveling up is making sure you pick the right ribbons. There are plenty of ribbons but some are a complete waste of time and won't have any impact on your farm and how good it is. Make sure you get all the free ribbons and cash them in as soon as you start your farm. Your priority should be to get green ribbons first. These offer you the most benefit and you should spend your time focusing on them. Orange ribbons are also worthwhile, but only get them if you have spare time and are looking for something to do. Forget red ribbons. They are a complete waste of time and you should focus your energy on green and orange ribbons.

Speed and timing is important in FarmVille. Beginners should not waste their time building things that don't offer you the most return on your investment. Always be sure to plant strawberries when just starting out as these offer you the highest level of return and mature the fastest.

### **Knowing the profit rate of different plants**

Millions of users are looking for Farmville Coin strategies ever since the game was released in June 2009. Getting huge amounts of coins in Farmville is difficult if you don't have direction for your money-making efforts so I'm going to give you some tips on how to maximize the amount of coins you earn.

The best way to make Farmville Coins is to know how to properly plant and harvest. Knowing the profit rate of different plants is crucial to maximizing your coins you get from harvesting. There are certain plants you should use in order to get the most amount of coins in the least amount of time, all other plants besides the ones listed in this article are a complete waste of money and time.

Before you begin, make sure your entire farm is plowed and ready to be seeded. Yes, you read that right, every single square on your farm should be plowed and used for harvesting. Every other item in the game is a distraction at this point and will hinder the amount of money you make.

Ok, now onto how to actually make money. The strawberry is the most profitable plant starting off because it gives you the highest return for what you pay and you can harvest it 6 times per day. Harvest and replant this fruit as many times as you can per day on every single square.

Once you are high enough level to get the pumpkin, do the same thing for that. Then move on to rice, raspberries and blueberries as you unlock them. This will get you a lot of coins and continue to be very profitable up until about level 25.

Also, don't worry about buying cows, chickens or trees. These cost too much for the initial investment and don't give you very much in return. Don't get these items until around level 30 when you have the extra money to spare.

These Farmville Coin strategies alone will help you get a huge amount of coins in a short amount of time, but there are other strategies you can use to truly make enormous amounts of money.

## **How to Earn Farmville Coins - Six Different Ways to Get Rich**

The flash based game Farmville has become very popular with Facebook members. Players build a virtual farm, earn coins by harvesting crops, harvesting trees and collecting from animals (including circus peanuts from elephants). All of this makes for a very interesting and addicting game. But, before you do all this, you need to know how to earn Farmville coins.

Here are different ways to earn Farmville coins:

- 1.) Harvesting crops. As you level up you'll see an increase in the money you can earn from other crops.
- 2.) Collecting items from animals (white wool and black wool from sheep, angora from rabbits, milk from cows and goats and more)
- 3.) Harvesting the fruit from trees. Types of trees include, but are not limited to, cherry, apple, orange, lemon, lime and olive..
- 4.) Gifting with your neighbors. You can either keep or sell whatever they give you. One way or another you get coins from it.
- 5.) Visiting neighbors and helping them with their farms. You only get 20 coins each so make sure you make some friends.
- 6.) Complete the "mastery" for each crop. Harvest a certain number of crops and receive a gold star and a bonus. There are 3 levels of mastery for each crop.

These are the ways to earn Farmville coins that are in place right now. In addition to everything that was listed in the opening paragraph you can buy decorations like fences, tool sheds, windmills and hay bales to name a few. Buildings including different model houses, a tent and barns as well as different vehicles are also available. Spend your coins wisely and implement a strategy is a fail safe approach. The most important thing is increasing your level to unlock the more prestigious items and make your farm unique and pleasing to the eye. -
